

Sterile Compounding Curriculum Update Schedule*
2019 USP Chapter 797
June 2019

CriticalPoint is working diligently to update all our live training offerings to reflect the final 2019 USP <797> Chapter. Included in that revision are significantly revised QP503A and CISCI (Certification in Sterile Compounding for Inspectors) Certification Post Tests.

The USP <797> and <800> Gap Tool will be reopened in July once the electronic gap tool (items, logic and detailed action plans) have been updated, tested and published. We anticipate that will occur on or before July 8, 2019.

We are also performing a review and update of existing Nonhazardous Sterile Compounding eCurriculum and Standard Operating Procedures. The schedule below denotes the dates when customers can expect to see the updated offerings. For additional detail, please refer to the following tools:

- Sterile Compounding Standard Operating Procedure (SOPs) Templates Table of Contents Work Plan
- CriticalPoint’s 2019 Sterile Compounding eCurriculum Revision

July 31 st	August 30 th	September 30 th	October 31 st	November 29 th
